¹ HMA (Ηλεκτρονικό Μητρώο Αποβλήτων - Electronic Waste Registry) is an online service provided by the Greek Ministry of Environment. It provides for the electronic registration of the entities subject to relevant national legislation, as well as their activities. In addition, it records accompanying information such as the corresponding permits that validate these activities. Each entity is assigned a unique registration number with no expiration.

² EnviProtec P.C. is the notifier-licensed collector of the waste with insurance that covers the routing of the waste as per the European Waste Shipments Regulation.
